

**PRESS RELEASE**  
FOR IMMEDIATE RELEASE

**PROGRAIN EXPANDS ITS WESTERN CANADIAN SOYBEAN PORTFOLIO  
WITH THREE ENLIST E3™ VARIETIES**

**Saint-Césaire (Quebec), June 30th, 2026** – [Prograin](#) is pleased to announce that it will assume select soybean varieties previously marketed under the Brevant® seeds brand in Western Canada beginning with the 2027 growing season. This transition will ensure growers continue to have access to these trusted soybean genetics, supported by Prograin’s expertise, service, and distribution network.

This transition represents an important opportunity to strengthen Prograin’s presence across Western Canada while continuing to support the strong relationships built with the current retail partners. The goal is to complement Prograin’s existing portfolio and ensure growers have continued access to this high-performing soybean genetics.

**Three new Enlist E3™ varieties offered under Prograin’s portfolio**

Prograin will offer three new Enlist E3™ varieties under its portfolio for Western Canadian growers. The following varieties will be available for the 2027 season:

- B0024EE
- B0045EE
- B0065EE

**The same trusted genetics, now delivered by Prograin**

Western Canadian growers have trusted these varieties for their strong agronomic performance and consistency in the field. Through this transition, Prograin remains committed to preserving access to these proven genetics while delivering the agronomic expertise, responsive service, and local presence that growers value. Prograin is working closely with production partners to ensure a seamless transition and uninterrupted supply for the 2027 season and beyond.

*“We recognize the confidence growers have placed in these varieties and the value they have consistently delivered across Western Canada,”* added Alexandre Beaudoin, VP Sales and

Marketing at Prograin. *“Our priority is to ensure a smooth transition and continued access to these proven genetics while leveraging Prograin’s strong support network and customer-first approach to help growers succeed.”*

The list of distributors can be found on [Prograin’s website](#).
