GLOBALLY

April and the first half of may have been extremely wet and cold. Manitoba has received record precipitation with large areas flooded out. The red river valley will see extremely delayed seeding dates because of flooding. The rest of Manitoba is approx. 5% seeded as of May 20, 2022. Currently, less than 1% of the soybeans in the province have been planted. Crop insurance deadlines for soybean planting dates have been extended on May 20, 2022.
