| 25 mm         | 11.5 °C             | Average              | 455 CHU's |

## GLOBALLY

We have seen good weather for the most part across Manitoba during this period. Currently 50-75% of the soybeans are harvested across the province with above average yield results. Quality looks great so far.

## DEVELOPMENT STAGE - All soybeans are harvested or at R8
