

CROP REPORT

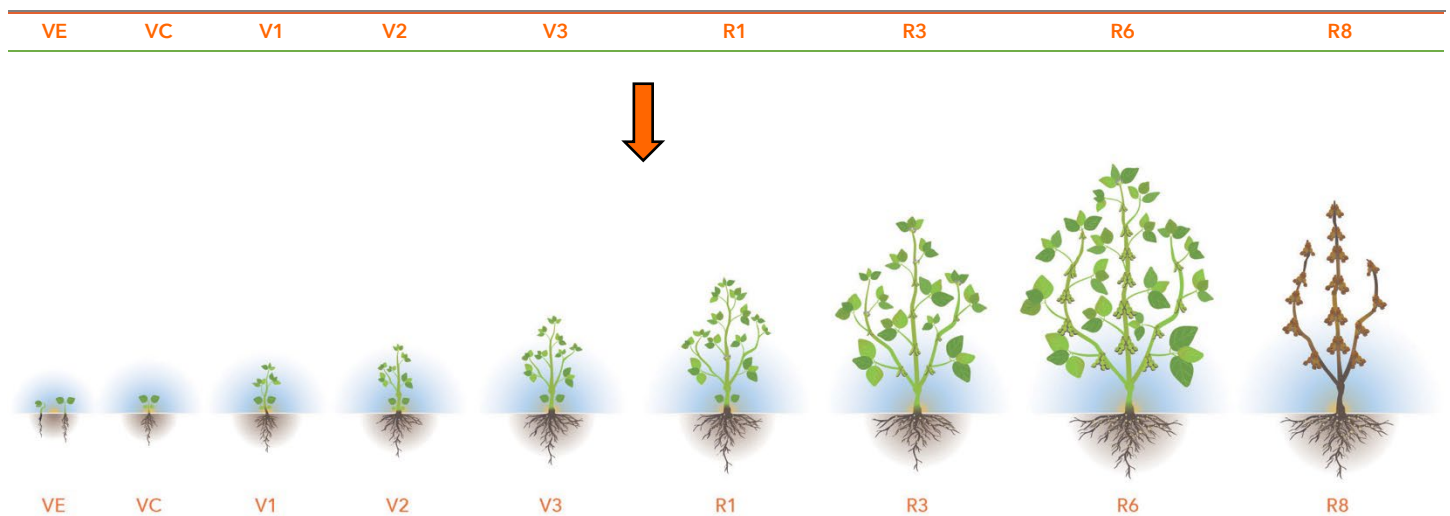

Season start date:
April 25th, 2023
Period covered:
From June 1st to August 6th

LOCATION	RAIN	AVERAGE TEMPERATURE	CHU
Manitoba 2021	149 mm	25.1C	2425 CHU
Manitoba 2022	214.98 mm	24.4 °C	2356 CHU

GLOBALLY

Soybeans across the province were all planted by the first week of June. Hot, dry conditions have put the soybeans under some stress but overall, the emergence and growth have been good. Hot and dry weather continued throughout May and June causing very early flowering as the soybeans head into reproductive stages.
