

## **CROP REPORT**

Season start date: April 25<sup>th,</sup> 2023 Period covered: From August 11<sup>th</sup> to September 4<sup>th</sup>

LOCATION	RAIN	AVERAGE TEMPERATURE	CHU
Manitoba 2021	149 mm	25.1 ºC	2425 CHU
Manitoba 2022	214.98 mm	24.4 ºC	2356 CHU

## **GLOBALLY**

Soybean harvest in Manitoba has just started in the first few days of September. The majority of the soybeans are in R7 to R8. The last half of August brought on some moisture which helped with seed fill. Yields are still expected to be average.
