

CROP REPORT #5

Season start date:
April 25th, 2023
Period covered:
From September 4th to October 13th

| LOCATION | RAIN | AVERAGE TEMPERATURE | CHU |
|----------------|-----------|---------------------|------|
| Manitoba, 2021 | 149 mm | 25.1 °C | 2425 |
| Manitoba, 2022 | 214.98 mm | 24.4 °C | 2356 |

GLOBALLY

Soybean harvest in Manitoba is approximately 75% complete as of October 13th. We expect the last 25% to be completed shortly as the soybeans are ready, however we have had lots of rain recently to delay harvest. Yields are average to above average and quality looks good so far.

DEVELOPMENT STAGE
